9th January 2022

Dear Sara,

How are you? Hope you are doing okay. I am fine and very happy. It feels so good to be a winner of the 8th writing Competition. This is because I didn't expect this for I have not had this chance before.

I am thankful for you have helped me to know that as a girl I really can. You have also helped me to experience the feeling of knowing that you can really do something. You have really made me happy.

What I would just like to ask from you is if I can get any other chances that I as a girl can participate in. I know if I get this chances they may help me in my studies and in my future life. This can also help me to nature my talents as well as to achieve my dreams.

I hope that you will consider my request. Above all know that I am very happy and thankful.

Yours Loving,
Glorian Vienda.
